DEPARTMENT OF EDUCATION.
SUMMARY.

Calcutta, the 1st June 1925.

From time to time pilgrims to the Madras and themselves stranded at Madras after the performance of their pilgrimages without means of subsistence and unable to return to their homes. Their condition in these circumstances is often attended with great hardship. In the past the charges have been met by private arrangements, by the generosity of benevolent Companies, and by assistance from Government. Experience has shown that the haphazard method of sending destitute and stranded pilgrims is inconsistent and unsatisfactory. The Government of India expressed its deep anxiety that the subject should be brought from the Madras community and from Madras Government under British and Indian States which have an appreciable number of Muslim subjects. It is hereby stated that an appeal for Government will find ready response in the Madras community at large and among the Ruling Princes and Chiefs. The Government of India trust that, subject to the approval of such a vote by the Legislative Assembly, they will be able to meet by a substantial grant the contributions which may be collected. It is hoped that it will be possible to place the funds collected at the disposal of an agency largely non-official and composed in the main of Madras Muslims, and that the funds will be sufficient to enable that agency to deal with cases of destitute pilgrims both in the present and in future years. The Government of India are at present in communication with the Government of Bombay on the subject. In the meantime, it is suggested that any contributions made should be sent to the Imperial Bank of India, Madras, to be placed in the credit of a fund named 'The British Government Fund'.

In the case of export cargo, the general receipt will not be granted until the bondholder shall have complied with the conditions stated in the invoice of the Port Trust from which the "Export Application" is.

But from the moment of the surrender of such receipt to or such equivalent, by the owner to the Trust, such goods shall be at the owner's sole risk notwithstanding their being in the Trust's possession and subjecting such surrenders in those referred to above in clause 1 (5).

(b) *To take charge of goods for delivery or shipment.*—Under section 22 of the Act, the Trust has the option to undertake, or to refuse to undertake, the reception, removal, forwarding or storage of goods brought within its precincts. For goods of which it elects to take charge, the Trust is bound, under section 23 (1) of the Act, to give a receipt if the owner requires.

(c) *Goods of which the Trust does not take charge.*—But at present the Trust does not take charge of the following classes of goods, whether in the open or under such shelter, bonded or unbonded, as it may here be placed at a warehouse or warehouse agent's disposal, viz.—(i) *Experte not specifically bonded for security under clause 1 (4), and for which a receipt has, therefore, not been granted;* (ii) *Iron and steel, etc., the handling of which has been relinquished by the Trust to warehouse agents;* (iii) *Unbonded stores of which the handling has been relinquished by the Trust to warehouse agents—other than the combustibles that must be landed under the Trust's combustion permit;* (iv) *Government stores;* (v) *Sea goods;* (vi) *Goods stored in Raffles in Part II of the Bonds of Stores;* (vii) *Old goods landed under the Harbour and (viii) goods stored on rented plots or in rented sheds.*

4. *Portage and storage.*—(a) *Rates and charges.*—The rates given in Part II of the Bonds of Stores meet portage of goods by the Trust except the stores placed in India in Part II of the same and goods landed outside the harbour. Whereas, as the report of inspectors, the Trust handles any goods not otherwise as handled, it will levy an additional charge equal to the actual cost incurred in such handling, with 4 annas per ton as a minimum, and also storage charges if incurred, but will accept no responsibility in respect of cargo so handled.

(b) *Reimbursement of portage of iron and steel by the Trust to warehouse agents or others.*—(c) *Whereas the Trust agrees with warehouse agents to relinquish to the latter the portage stores stored, whether pointing at foreign, consigned to others than its Government, and loaded at the local basin from port, the rate of harbour dues thereon will be a anna per ton less than that quoted in the Schedule of Rates.*

(d) *Trust may collect warehouse agents' portage charges.*—Should an agreement be come to between the Trust and a warehouse agent that the latter shall handle, store or otherwise handle by the former, as an agent, any goods, both parties to the agreement will be at liberty to arrange, initially, for the Trust to collect local expenses, and to pay the warehouse agent, the agreed rate for portage, without the warehouse agent being thereby constituted the Trust's warehouse agent.

5. *Portage and expenses.*—(a) *Trust passed agents at agents' cost.*—The portage of goods by the Trust is not covered by the rates given in the Bonds. But in order to avoid its confusion that may occur if the carrying and unloading of goods passing out for shipment through its docks and over its piers or wharves are left to agents themselves, the Trust voluntarily assumes the labour and machinery for handling and making cargo for presentation, under a present charge of 4 annas per ton, per passage, whether its stores are sent out or not. Experte as handled for shipment do not, however, pass through into the Trust's custody, but are at the risk of the owner. Should any port of these have been in the Trust's custody under clause 1 (4) prior to their passing out for shipment, they will already have left such custody under clause 1 (5) before being loaded.

(b) *Compensation by the owner for its ships.*—With the exception of goods intended for export that require the use of vessels for their conveying from wharves or docks and for which the rate of storage will be the one set out in clause 1 (5), the 4-anna charge specified in clause 4 (c) is intended to meet the use not only of labour but also of such chandling, wharves, cranes, lashing, etc., as has been provided by the Trust for the general convenience of the docks, whether their goods may have come into its custody or not. But the 4-anna per ton charge will not be levied on goods as which dues are quoted "per each".

(c) *Labels of secure bonds agents.*—Should owners of exports desire to do so, they may, with the Trust's permission, affix to the "application" labels their goods themselves, and in that case they will be granted a rebate of 5 annas on all the above-mentioned charges. But such permission will be given for the handling of the whole, not a part, of the goods covered by one "application".

(d) *Shipping agents.*—Experte arriving by sea must be unloaded and stacked by agents. Experte arriving by rail, other than coal, and, likewise, rough stone, ballast, timber and such like, will be dealt with under the Port Trust Railway tariff.

(e) *Charters.*—For the purpose of receiving dues, all exports must be suitably stacked by land, wharves or measurement at places pointed out by the Trust. No experte may be moved forward for shipment until all due charges shall have been paid.

6. *Special provisions.*—For portage, other than that for experte as per clause 4 (c), dues by the Trust are not covered by Harbour dues, the charge will be the actual cost to the Trust of such portage, with 4 annas per ton as a minimum. In the case of goods as which dues are quoted "per each" the minimum charge for special portage will be 10 per cent of the scheduled harbour dues.

7. *Transit dues of imports left lying in the Trust's wharves.*—(a) *Labels in respect of goods due to export, for transshipment, placed and the rate of transit charges.*—The Trust's liability in leaving transit dues on imports is not set at work as a means for profit, but to prevent the payment of its dues which experience shows to take place if its charges for clearance are too low. Such suspension is found necessary to interfere with the speedy removal through the Harbour premises of goods of which owners desire to take early delivery. In order to prevent suspension the following amount must be deposited:—

At the shipping for each day, including Sundays and Chances of Clearance holidays, as the Trust, by resolution in meeting, may see fit to grant from time to time, transit dues will be charged at the following rates during the periods in the suspension named below when transit dues will not be charged:—

For the first week, or portion thereof—

- | | |
|---|------------------------------|
| (a) On consignments, actually landed, whose weight or measurement exceeds 50 tons and over | 3 shillings per ton per day. |
| (b) On consignments, actually landed, whose weight or measurement exceeds 10 tons and over, but less than 50 tons | 4 shillings " |
| (c) On consignments, actually landed, whose weight or measurement exceeds less than 10 tons | 5 shillings " |

For the second week or portion thereof—take the above rates.

For the third and succeeding weeks or portions thereof—double the rate for the first week.

Notes.—For the purpose of determining the classification all fractions of a ton exceeding $\frac{1}{2}$ of a ton will be reckoned as one ton.

And if at any time the Trust should appoint a surveyor or surveyors in its behalf, should it be deemed worth of the vessel treated of goods through the port, it may direct the surveyor or surveyors of any specified goods to remove such goods from the harbour premises within a given time; and should the goods not be so removed, the Trust may charge them until such time, then up to 10 p.m. per ton per day until the goods shall have been removed from the harbour premises. Also if the aforesaid charges should prove inadequate to secure the removal of the goods, the Trust may itself remove them from the vessel at the expense of the owner and may make them at any time again subject to the provisions of the risk of the owner.

Exemptions—

(1) For periods during which goods are detained by the Collector of Customs.

(4) For periods not exceeding twenty-one days calculated from the date following a vessel's completion of discharge during which goods are detained for survey, either by the Customs agents or by the Trust, including Sundays and holidays, provided that such goods are removed from the Trust's premises within 24 hours, excluding Sundays and holidays, after having been surveyed.

(5) *Shut-in goods*.—In the case of goods for which a special rate of harbour dues "per sack" is quoted, the rate of such dues, after the free days mentioned in clause 4 (a) will be calculated as a percentage of the harbour dues then in force. For the first week or part thereof 50 per cent, for the second week or part thereof 75 per cent, and for the third and succeeding weeks or parts thereof 100 per cent.

(6) *Goods from unknown vessels*.—On goods from vessels whose names are unknown, brought duty will be charged up to a maximum of two months duty.

(10) *Other exemptions*.—(i) With the exception of dangerous goods landed at a quay, half the above rates will be charged if goods lie in the quay without securing of wharves at night. (ii) Goods remaining notched in the quay of the free days will be taken to be "special" cargoes. (iii) After the rates specified in clause 4, if stated by the Trust in the harbour of refuge generally. (iv) After the rates charges begin to accrue, at all times will be made for Sundays or holidays. (v) Goods not stored are not subject to charges which have been loaded empty or partly empty.

7. *Accessories and other charges*.—(a) Commission for services for the delivery of the cargo, as per the schedule, the Trust provides accommodation, as per clause 4 (a), for the use of consignees for a period being enough, viz. 10 days. (b) Between 10 days and 20 days, the charges of 10 days goods. Also, as stated in, it shows certain charges, as a second, as expenses of the cargo, and in order to prevent, in the interest of all consignees equally, the above of the principle of free accommodation and the charges resulting therefrom, the Trust is obliged to impose penalty charges as per clause 4. But in imposing these penalty charges the Trust does not thereby intend to set its warehousemen for goods; but by allowing the free days permitted under the same clause it hopes to prevent its penalty collection.

(c) *Free accommodation for cargo*.—Expense may stand, while the Trust's premises, due of penalty charges, for each free day, as the Trust, by resolution in meeting, may see fit to grant free

11. ABSENCE OF CHARGES IN 1908 AND 1909.—(a) *Five period allowed and the rate of charges.*—After allowing for such free days, exclusive of Sundays and, Christmas or Commerce holidays, as the Board may see fit to grant, the following charges per ton per day will be made on additional balances of cargo on board, or on cargo, handled by marine agents at the boat basin free yard, as worked on from day to day. The total amount will be considered as commencing from the date of the sailing of the vessel concerned.

The loading of such wagons must be done at their own expense by the shippers concerned. But when, with the Trust's permission, the unloading of wagons at the ship's side and the shipment into the steamer or into lighters is done by agreement, they will be given a rebate of Rs. 4-4-0 per 25-ton broad gauge wagon and Rs. 3-4-0 per 20-ton broad gauge wagon for goods shipped direct from wagon into a steamer and Rs. 3 per 25-ton broad gauge wagon and Rs. 2-0-0 per 20-ton broad gauge wagon for goods unloaded from wagons into boats. If smaller wagons are employed the rates of rebate per wagon will be in proportion to the carrying capacities of such wagons. For handling of cargo by the Port Trust, at the request of shippers, in connection with the shipment of the export produce from warehouses, the rates will be Rs. 5 for each 25-ton broad gauge wagon and Rs. 3 for each 20-ton broad gauge wagon and proportionately for wagons of smaller carrying capacity. In the case of goods loaded from a warehouse for shipment and returned by wagon to the warehouse, without being touched after having been shot out by the steamer, the charge for each cargo only will be recovered for such inward or outward trip at Rs. 3 for each 25-ton broad gauge wagon and Rs. 2-0-0 for each 20-ton broad gauge wagon and proportionately for smaller wagons, but when a portion of a wagon load of goods is shot out and taken back to the warehouse, rebate of handling charges on such portion will be in proportion to the carrying capacity of the wagon involved in the exchange. Vehicles hired from the Port Trust will be limited, on behalf of the Trust, to the rate of Rs. 3 per 25-ton broad gauge wagon and Rs. 2-0-0 per 20-ton broad gauge wagon for each inward or outward loaded trip.

(c) *Harbour Charges on Railway Traffic*.—For all goods entering or leaving the harbour in railway vehicles, with the exception of the services printed in Schedule in Part II of the code, the Harbour, when collecting their freight from shippers, will also on behalf of the Trust collect the sum of three pence per wagon or 10 tons for terminal charges. In the case of the companies, per referred to, as well as all railway traffic loaded as goods on a plus per wagon will be recovered. The above will be subject to a minimum charge of one anna per wagon.

(d) *Harbour Charges on Tugs and Passenger Boats*.—To cover the cost of landing within the Trust's premises the Harbour, when collecting their freight charges on vehicles containing passengers, troops or animals entering or leaving the harbour, will, on behalf of the Trust collect Harbour terminal charges at the rate of one anna per animal collected on the shore of the vehicles. But the Harbour and the Trust may agree to recover this sum at a rate per vehicle according to gauge or size.

(e) *Shedding*.—The harbour charges cover only the shovelling of vehicles between the time they are taken over from the Railways and the time they are placed in position for loading or unloading. For all extra shovelling outside these operations a charge of Rs. 2-0-0 per vehicle per hour will be made irrespective of whether the wagons are loaded or empty.

(f) *Shedding of Railway Traffic*.—Vehicles hired from a Railway will be loaded by the Trust, on behalf of the Trust, at the rate of Rs. 2-0-0 per vehicle for each inward or outward loaded trip; but the Trust will accept no responsibility for the loss of or damage to the contents of such hired vehicles.

24. *RAILWAY GOODS NOT SHIPPED*.—Excepting goods consigned to the Trust and goods stored in a warehouse hired by the Trust to a shipper but not shipped, all goods entering the harbour premises by rail, whether shipped or not, are liable for harbour dues. Goods ruled by a warehouse in the harbour, and afterwards taken out of the harbour premises for re-shipment, will have to pay harbour dues before they are received; but when such goods are again brought back for shipment after having been re-landed on further harbour dues will be recovered, provided the owner gives a written declaration to the Trust about the identity of the goods when they are previously received. Goods transhipped between wagons in the harbour premises will be treated as export cargo and will

be liable for harbour dues and terminal charges. But terminal charges alone will be levied on railway goods and transhipped in the harbour.

14. **Transshipment.**—Goods transhipped for transshipment, and transhipped, from ship to ship, whether directly or via the shore, will pay only quarter harbour dues. Overland goods per which are to be shipped may be treated as transhipped cargo, provided the manifest of the vessel from which they are loaded is amended to show the packages as for transshipment. But if loaded by the Trust, such goods will pay a further sum of 4 shillings per ton for each operation, whether in or out. With the exception of iron and steel stored in the Free Yard, the rates quoted in clause 7 (c) will apply to all goods awaiting transshipment in the Trust's premises, except that for such articles the penalty charges, there quoted, will be halved. In the case of iron and steel awaiting transshipment in the Free Yard, the rate of interest dues will be the full rates uniformly charged in the Free Yard. On goods awaiting transshipment on which the rate of harbour dues is "per ton," the tonnage dues will be calculated at 50 per cent of the ordinary rates of tonnage dues. The free days for goods awaiting transshipment will be reckoned as for exports under clause 5 (b). Charges will not be charged on such goods. Coal or petroleum fuel, for bunkers, which has paid harbour dues, may be transhipped free of further harbour dues. Coal or petroleum fuel for bunkers transhipped direct from vessel to vessel shall pay quarter harbour dues. If the tonnage of transhipped goods exceeds otherwise is readily ascertained, dues will be levied on the tonnage of the lighter or other craft conveying them from the vessel by which they were transhipped for transshipment. In the case of import goods on which the Trust relinquishes a portion of the harbour dues for handling, the harbour dues for transshipment will be calculated on the balance left after the amount to be relinquished has been deducted.

15. **Working hours.**—The Trust's "ordinary working hours" are the hours fixed for Customs working hours from time to time by the Collector of Customs, Malacca.

16. **Over-time working.**—Harbour agents or others, who require facilities to be done outside the Trust's ordinary working hours, shall put in a regular application for such overtime working, not later than 5 p.m. on the same day, or in the case of Sundays and holidays on the previous working day, and shall pay to the Trust overtime fees as the following scale, whether subsequently they allow cargo during such overtime hours or not. RULES FOR THE PUBLIC EXAMINATION QUALIFYING FOR ADMISSION TO THE ESTABLISHMENT OF DISTRICTAL ACCOUNTANTS DURING THE SECOND WHOLE WEEK OF JANUARY OF EACH YEAR.

The scope of the examination has been transferred from the Engineering College, Madras, to the Royal Engineering College, Aligarh. The first examination under the new rules will be held in January 1922. The new Indian and Muslim examinations are to be held under the old rules in November and September 1921 respectively and are to be held.

The Examination fee has been raised from Rs. 18 to Rs. 25.

DETAILS 1922.

RULES FOR THE PUBLIC EXAMINATION QUALIFYING FOR ADMISSION TO THE ESTABLISHMENT OF DISTRICTAL ACCOUNTANTS.

1. No one will be eligible for admission to the establishment of Districtal Accountants and be posted as assistant in the following subjects, held under the orders of the Auditor-General—

Subjects.	Full marks.	Minimum passing marks.
Writing (handwriting, diction and rapidity)	100	50
Dictating (spelling, punctuation, etc.)	100	50
Copy Writing	100	50
Arithmetic (for whole)	100	100
Elementary Geometry	100	50
Elementary Algebra	100	50
Book-keeping (introductory)	100	50
Total	700	425

2. A candidate must also obtain two-thirds of the total marks (i.e. 466) in order to pass the examination.

3. Formerly this examination was conducted by the Madras Civil Engineering College, Bangalore, the Royal Engineering College, Aligarh, the College of Commerce, Poona, and the College of Engineering, Madras. For the future it has been arranged to conduct it in a single examining body, viz., the Royal Engineering College, Aligarh.

4. The following are exceptions to this rule—

(a) Persons who have passed the Senior Examination in Book-keeping of the London Chamber of Commerce and the Accountants' Exam of the Royal Society of Arts and who hold a certificate of having passed the Intermediate Examination of an Indian University or any other examination of a similar standard of general education, are eligible for appointment as Districtal Accountants without further examination.

(b) Persons who have passed in both (1) the Mathematics and (2) the Commercial Diploma Examinations of the Allahabad University, and obtained a minimum of 40 per cent of full marks in each of the separately-set subjects and two-thirds of the aggregate marks for these three subjects, are eligible for appointment as Districtal Accountants' clerks without further examination.

(c) A graduate of an Indian University may be exempted by the Accountant-General of the Province from the examination, except in Book-keeping, if the latter is satisfied that the candidate is an efficient and capable administrator.

5. This examination is held during the second whole week of January at the Royal College of Engineering, Aligarh, and at the offices of the Accountant-General, Madras, Bombay, Bihar and Oudh (Lucknow), United Provinces (Allahabad), Punjab (Lahore), Berar (Rampoor), and Central Provinces (Nagpur), and the Comptroller, Ameer (Hyderabad).

6. Other centres of examination may be fixed by the Accountant-General, provided that the number of candidates is sufficiently large and suitable arrangements can be made for the conduct of the examination under the supervision of a qualified officer.

7. Only candidates whose age does not exceed 24 years on the date of the examination are eligible, but persons holding permanent *provisional* appointments in Government service may be permitted to undergo the examination up to the age of 26 years.

Note.—The age limit of 24 years for candidates in Government employ will cease to be force with effect from the year 1923.

8. The candidate should apply to the Accountant-General of his province not later than ten months before the date fixed for the examination, stating the reason at which he wishes to be considered and sending a fee of Rs. 25 and the following certificate and a registration form—

(1) Certificate of good character signed by the candidate's immediate official superior, by the immediate superior when he has been discharged, or by some other superior under whom he may have been brought up or employed or to whom he may be well known. The certificate must have special reference to the two years immediately preceding the date of the application.

(2) A duly verified statement of age, e.g., a baptismal certificate, a birth certificate, an affidavit signed by the guardian or a relative of the candidate before a magistrate, or an extract from the service book if the candidate is already in Government employ.

The application should be written by the candidate in his own handwriting, and the certificate (which will not be returned) should be submitted in original.

9. The registration form should set forth the following particulars—

(1) Name of candidate (including Christian or personal name in full).

(2) Father's name (in full).

(3) Residence at date (i.e., European, Anglo-Indian or Indian) of candidate and if Indian, name of tribe.

- (9) Date of birth.
- (10) Place of birth.
- (11) Present address.
- (12) Registration period.
- (13) Signature of candidate.

(14) There is mark of candidate, left hand, to be made in the presence of a well-known responsible person who has to be the candidate.

- (15) Signature, designation and address of a recommended witness (with date).

And—A candidate already in Government service should, in like manner, submit his application through his immediate official superior.

8. Applications which do not satisfy the requirements of the foregoing rules should be rejected without sending the further correspondence with the candidate. Other applications will be accepted on their merits by the Accountant-General whose decision as to whether or not the candidate should be allowed to appear for the examination will be final.

9. At least one month prior to the date fixed for the examination, the Accountant-General should forward to the Principal of the College for registration a statement showing in respect of accepted candidates only, their names, ages (as on date of examination), and addresses and the names where they are to be examined. This statement should be supported by the accepted candidate's registration forms duly signed by the Accountant-General in token of acceptance, which should be carefully preserved by the Principal.

10. Simultaneously each candidate should be informed whether or not his application has been accepted.

11. The fee of accepted candidates should be deposited by the Accountant-General at the local treasury to the credit of the Principal and those of rejected candidates should be returned to them by postal money order at their own.

12. As each examination is complete in itself, a candidate who has failed in an examination and proceeds himself for an re-examination or a subsequent session, must undergo the full examination and furnish a fresh fee with fresh certificate and registration form. If from any cause the candidate fails to appear for the examination, the fee paid will not be refunded, and will be placed to his credit for any subsequent examination.

13. Examination papers for registered candidates only will be sent by the Principal to the officers conducting the examination in time for the fixed dates.

14. The examination will be held at all the centres simultaneously under the supervision of persons of status on the date and at the hours fixed by the Principal, which should be communicated by the Principal direct to the registered address of each accepted candidate by registered post.

15. The results of the examination will be declared by the Principal within three months after the examination and communicated direct to each examinee, showing only the marks gained by him in each subject and the order of standing in the case of successful candidates. A few printed copies of the complete results of successful candidates only, showing (1) order of merit, (2) name (in full), (3) father's name, (4) age, (5) examination passed, (6) marks gained in each subject and in the aggregate, and (7) address, should be forwarded to each Civil Accountant-General to enable him to furnish lists of passed candidates.

16. It must be distinctly understood that the passing of this examination does not guarantee claim to appointment as a Divisional Assistant, and that application for appointment should not be addressed to the Principal. The passing of this examination is a necessary qualification, but the establishment of Divisional Assistant is mainly regulated by selection from amongst qualified clerks actually employed on revenue duties in the Divisional and sub-divisional offices of the Public Works Department or in Civil supply offices. A small number of graduates of Indian Universities and other persons of superior and special qualifications who may have passed this public examination, may, however, be appointed direct by the Accountant-General under paragraph 4 of Appendix A.

17. These lists may at any time be amended or revised by the Accountant-General who reserves to himself the power to grant exemptions from this public examination in very special cases. No general revision of the rules affecting the subjects of the examination or the necessary qualifications of candidates will be ordered until three years have elapsed since the date of such revision.

W. D. WOOLLAN,
Off. Accountant-General.

The position of the barometer is exactly two feet above the level of the sea, and the readings of the rain-gauge are two feet from the ground. The wind, rain and general weather registered are for the moment only—from midnight to midnight.

The total quantity of rain collected since January 1st is 16.88 inches, the average due for the same period being 7.41 inches.
